Subscription.—Rs. 6 per annum payable in advance.

THIS Paper, which has now been in existence a twelve month, during which period it has been distributed gratis throughout India, has met with so flattering a reception that the proprietors have been induced to increase its size and add considerably to the reading matter in the column so that it may become a really first-class and readable Journal. *Captain Crawley*, (whose letters hitherto have been found so interesting), "Viela," and the London Sporting correspondent will continue to write as heretofore, and the list of contributors will further include such names as *A. G. Payne* (long known in the Billiard and Literary world as a good Amateur player, and writer of great ability, and *William Cook*, the Champion Billiard Player. With such a staff of contributors, there is little room to doubt that the Journal will fully redeem the promise made by the proprietors.

To meet the extra, and not previously anticipated, expenses that will thus be incurred, it has been decided to charge a small nominal subscription of Rs. 6 per annum payable in advance.

The first number of the *New Series* will appear on the 15th *January*, 1879, and will contain :—

COMMERCIAL INTELLIGENCE.

SATURDAY EVENING, 11TH JAN. 1879.

To say that the trade of this Port had improved during the past week would perhaps be saying too much, but there are certainly signs of improvement. Exchange, at all events, have shown more disposition to commence the campaign for the coming season, and the Freight engagements, although very moderate, have been larger than for many months past. The low rates of Exchange have also attracted attention, but although shippers would gladly avail themselves of them for future transactions, the Banks have shown no inclination to buy forward at comparative rates, and with the small amount of ready cargo available, only small sales of Bills have been effected; at the close there is a strong upward tendency, which seems likely to be maintained. With a good business doing in Exports, an improvement in the demand for Imports must follow, but this as yet is still only a matter of hope, as our various markets for European goods are almost as stagnant as previously reported. The demand for Native made manufactures is also very limited, and China, which has of late been taking a large quantity of the local spinnings of Yarns, appears to have been too freely supplied, as the latest advices state that the markets are overstocked and the off-take insignificant. Money here is dearer, owing in great measure no doubt to the want of confidence in the Bazaar on account of recent failures, but the sign is a healthy one, inasmuch as it indicates increased disposition to trade.

The failure of a native merchant of some importance has been announced during the week, owing, it is alleged, to redraftn on Cotton consignments, but although many others have suffered severely from similar causes, they are on the whole riding over present difficulties well, and it is to be hoped that we are at length coming to an end of the calamities which commenced so far back as last October.

The position of our Markets at the close may be summarised as follows. Cotton scarce, and for that reason abnormally dear when compared with Home quotations. Oilseeds in moderate demand, but for the same reason there is only a moderate export trade doing. Wheat is still at famine rates, and the business is still confined to purchases for local consumption. Imports of all kinds continue most difficult of sale, pending a general improvement in other branches of trade. Money is dearer. Exchange is firmer. Government Paper is weak. The less said about Joint Stock Companies shares in general, and Spinning and Weaving Companies in particular, the better, until certain matters now in abeyance connected with some of the latter have been explained. Freights are firmer, but the enquiry is still far from active.

At the weekly biddings for Council drafts on India which took place in London on the 8th inst., the sum of £350,000 was offered and allotted as follows: £250,000 to Calcutta at and £100,000 to Bombay at an average of 1s. 6 13/16d. per Rupee. Tenders on both Calcutta and Bombay at 1s. 6·81d. received in full. As compared with last week's biddings these figures show an advance of about ¾ per cent., but the price of Bar Silver has remained unchanged throughout at 49¾d. per oz. Now that our export season has commenced, and Calcutta already shows considerable signs of strength, it is only reasonable to expect an advance shortly, provided that the weekly drawings of Government are not increased too rapidly; for next week £2400,000 are advertised, but this amount should be easily disposed of in the absence of shipments of silver to the East, of which none are advised.

MONEY.—The last return of the Bank of Bombay for the week ending on the 4th instant showed a decrease in the Cash Balance of 12¼ lacs owing to the withdrawal of Public Deposits. Loans have also increased by 3½ lacs but Discounts are less by 1¼ lacs. In the open Market there has been decidedly more demand for Money, and rates are very firm in the Bazaar caused not only by the general distrust prevailing, but also by the prospects of an increasing Export trade. At the meeting of the Directors of the Bank on Wednesday day no change was made in the rates of interest and discount, which consequently remain at 5 per cent. on fixed Loans: 6 per cent. on demand Loans on Government Securities, and 7 per cent. on Mercantile Bills.

EXCHANGE.—Rather a larger business has been done in Sterling this week, although still very moderate for the time of the year, but rates have at last taken an upward turn. Business opened on Tuesday morning on the basis of 1s. 6 13-16d. for demand Bank and 1s. 7 7-16d. for 3 months' sight Credits. On Wednesday there was little change, but on Thursday the Banks showed less disposition to buy and were willing to draw at 1-16 advance. On Friday, however, considerable strength was apparent, and an advance of 1-16 was established in the morning, which before the close of the day had increased by a further 1-16 to ⅛. This advance is attributable in great measure to the increased firmness in Calcutta where rates are about 1-16 higher than they are here, as well as to the increased tightness in our Money Market. On Saturday rates were very firm, and closed with an upward tendency as follows:—Bank Bills on demand 1s. 7 3-32d.; 6 months' sight 1s. 7 11-16d. to 1s. 7¾d. Credits, 3 months' sight 1s. 7¾d.; 6 months' sight 1s. 7¾d. Documents, 3 months' sight 1s. 7 11-16d.; 6 months' sight 1s. 7 15-16d. On Paris the rate for 3 months' sight Mercantile Bills is Fcs. 206½ and 6 months' sight Fcs. 208½ per Rupee. For future delivery the Banks early in the week were willing to buy at about 1-16 advance for February, and 3-16 for March, but at the close there are no buyers beyond the present month.

On Calcutta there has been a moderate business doing at 3-16 to ¼ per cent premium on demand and 1¼ per cent. discount on 60 days' sight Bills.

On China the nominal quotation for 60 days' sight Mercantile Bills is Rs. 217 per 100 dollars. From Hongkong the latest quotation for 6 months' sight Bank Bill on London is 3s. 7¾d. per dollar and from Shanghai 5s. 0¼d. per tael.

GOVERNMENT SECURITIES were steady early in the week, but latterly with dearer money rates have given way and close at Rs. 94 for Fours and Old Fours-and-a-half per cent. and Rs. 99½ to Rs. 99¾ for the New Four-and-a-half per cent. Loan.

SHARES.—The panic which prevailed in our Market last Mail day in the Shares of Spinning and Weaving Co.'s has not as yet subsided, and rates with few exceptions are lower than those last quoted. Several of the Mills had stopped working, or were working short time before the occurrence of recent disasters; it now, however, appears that many of them will have to be wound up altogether. Bank Shares keep fairly steady, the only alterations during the week have been a fall of Rs. 6 in Nationals, and an advance of Rs. 14 per share in Bank of Bombays. In Press Companies, Berars have advanced Rs. 25 and Broach declined Rs. 9 per share. In Spinning and Weaving Companies, Alexandras have declined to Rs. 35, Alliance Rs. 1,400, Bombay Hemp and Jute to Rs. 80, Broach Mills to Rs. 3, Colaba to Rs. 105, Dhurumseys to Rs. 505, Fleming to Rs. 38, Hindustan to Rs. 800, Madras Spinning to Rs. 450, Nicol to Rs. 30, Nursey to Rs. 35, Soondercas to Rs. 500. In Land Companies, Colaba's have declined to Rs. 730. In Miscellaneous shares Bombay Burmah Trading Company have advanced to Rs. 1,740.

OUR PIECE GOODS MARKET has shewn a slightly better feeling this week, rather more business having been done from first hands, but as yet no improvement in prices has taken place. The transactions are estimated at about 1,000 packages from first hands and 1,200 packages from the Bazaar, a decided improvement on what we have been accustomed to for some months past, but there is still room for a large increase in the demand to bring business up to the mark generally expected at this time of the year. The consumption, is as yet very limited, but supplies are not excessive, and we are inclined to think that we have seen the worst. The rise in Exchange if it continues will also materially assist both dealers and importers.

The sales of the week have consisted chiefly of Grey Shirtings, but Printers, Madapollams and Jaconets, have also been dealt in to a moderate extent. In Bleached Goods small sales of Mulls and Shirtings are reported, but the demand is very slack, and Dyed and Printed Cloths remain very dull and difficult of sale. Local Goods are quite neglected, and heavy stocks are held.

TWIST.—The business in Yarns this week has been limited to sales by the local mills of about 1,200 bales at 6¼ to 6 5-16 as. per lb. for No. 20's Mule; supplies are excessive, both of imported and local Spinnings, and until trade generally settles down into its proper groove, we can hardly look for much improvement.

METALS.—*Copper.*—The Market is quiet, the business of the week consists of 900 cwt. of Braziers at Rs. 464 per cwt. *Yellow Metal* is also dull and difficult of sale. *Iron* is dull of sale at Rs. 25 per candy for British Bar.

COALS.—The spurt in this Market was of short duration, as scarcely any business has been done since the holidays. There are, however, still very few cargoes offering, and it seems likely that prices will be well maintained for some time to come.

COTTON.—The telegraphic advices from Liverpool this week, although not specially active, were for a few days after last Mail left undoubtedly steady, and notwithstanding a subsequent decline in the quotation for Mid.-Orleans, Surats have advanced ¼ per lb., and owing to their comparative scarcity are in good demand. This, combined with the small available supplies in this Market, brought out more buyers at an advance of Rs. 2 to Rs. 3 per candy, but even at this advance there are few sellers, as the arrivals at the up-country Markets continue so scanty, that sellers do not like to contract for earlier than February delivery for Oomras, and for ready lots quite fancy prices are still asked and paid. The Hingunghaut Crop is evidently a very small one, and is only coming in in driblets. For New Dholleras the nominal quotation is Rs. 185 for April-May delivery, but no transactions have been reported, and the accounts respecting it are very contradictory. The Broach Crop is still well spoken of, but like all others is late. Satisfactory accounts are still arriving from the Dharwar districts.

The business since last mail left is estimated at about 4,000 bales, made up of 800 bales Old, almost exclusively for local consumption, 1,500 bales New Oomras and Hingunghaut ready, and the balance for February and March delivery.

The *Receipts* during the week have amounted to 10,666 bales against 20,270 bales for the corresponding week last year. The total since the 1st September last is only 88,151 bales against 138,000 bales for the corresponding period last year. So far the arrivals of New Cotton are entirely made up of Oomras and Hingunghaut descriptions, but large quantities of both Old Oomras and Dholleras have yet to come forward.

The *Clearances for Sea* since 1st inst. have been 6,716 bales against 6,143 bales for the corresponding period last year.

The following are to-day's quotations for full pressed Cotton with the equivalents in Sterling, Cost and Freight to Liverpool, via Canal, without commission:—

Old—			
Dholleras	Good Fair ready		Rs. 168 = 4½d.
Oomrawuttee	„ „		„ 175 = 4¾.
New—			
Oomrawuttee	Good „		„ 194 = 5¼d.
Do.	„ (Feb. delivery)		„ 192 = 5¼d.
Hingunghaut	„ ready		„ 217 = 5¾d.
Do.	„ (Feb. delivery)		„ 216 = 5¾d.
Dholleras	„ (April-May)		„ 185 = 4¾d.
M. G. Broach	„ (Feb. delivery)		„ 200 = 5¼d.

LINSEED has been in rather more enquiry during the week and ready lots of Old have been placed at Rs. 6-2 to Rs. 6-3 per cwt. Arrivals are on a fair scale, but the reported sales to Exporters have been confined to ready Seed. In the New Crop transactions have nominally taken place between Natives at Rs. 6-4 per cwt., but no Seed is meant to change hands under these contracts, and the rate for March and April delivery may still be quoted at Rs. 6 per cwt. The prospects of the Crop are not quite so favourable, but that the outturn will be far in excess of last season we have still little reason to doubt.

RAPESEED is in small request. Sales have been reported during the week at Rs. 6-14 per cwt. for ready Guzerat, and for a time dealers held out for Rs. 7 per cwt., but on buyers withdrawing from the Market, they reduced their ideas to the previous level, and at the close there are sellers but no buyers at Rs. 6-12 to Rs. 6-14 per cwt.

IN GINGELLY a steady business is being done at about previous rates. Moderate supplies are arriving daily, which are changing hands at Rs. 37 to Rs. 40 per candy according to quality.

IN WHEAT, owing to its continued scarcity, there is still nothing doing for Export, and values are maintained at Famine prices—viz., Rs. 41 for White, Rs. 39 for Mixed, and Rs. 37 for Red descriptions.

LATEST INTELLIGENCE.

THE AFGHAN WAR.

OCCUPATION OF KANDAHAR.

CALCUTTA, JAN. 12, 10-30 P. M.

General Stewart's army marched through Kandahar on the 8th instant without opposition.

FLIGHT OF THE GOVERNOR OF KANDAHAR, AND ENTRY OF BRITISH TROOPS.

CALCUTTA, JAN. 12.

A telegram from General Stewart dated Camp Kushuh, 8th inst., telegraphed from Gulistan Karez 11th inst. states, "Shortly after marching yesterday morning I received intelligence that the Governor of Kandahar and all the officials except the Deputy Governor fled towards Herat on the night of the 6th inst., taking with them the remains of the Cavalry, and after disarming the Infantry. This news was shortly confirmed by a letter from the Deputy Governor professing submission and stating that he had taken measures to prevent disturbances, and awaited my arrival to make over the city. Our troops will march through the city to-morrow, the 9th inst. The population on the line of march are perfectly quiet. There has not been the slightest attempt to molest camp followers or plunder baggage since we left Pishin."

Another message from General Stewart undated, but probably dispatched on the 6th or 7th inst., reports that the advanced Cavalry Brigade under General Palliser had encountered the enemy's Cavalry, about 600 strong, on the previous day and easily defeated them. The enemy's loss was 34 killed and prisoners. Our loss was four men wounded. The enemy fled through Dehibaji towards Kandahar.

REPULSE OF A MARAUDING PARTY.

CALCUTTA; JAN. 12.

From the Kandahar line we hear that a marauding party made two attacks on a detachment of our sepoys guarding communications in the rear at Aranbi, but were repulsed.

Dera Ismail Khan frontier is now perfectly quiet, and all is quiet in the Khyber Pass.

NUMBER OF DESERTERS AND CASUALTIES IN GENERAL ROBERTS'S FORCE.

CALCUTTA, JAN. 12.

The total number of deserters from General Roberts's force since it was collected at Thull, has been five, all trans-frontier men. The casualties in action have amounted to 128, including four British officers killed and three wounded. 22 camp followers have been killed, seven in action and seven in the Darwaza Pass. Four were treacherously murdered while buying grain in a village in Khost, by men professing friendship; also four stragglers were killed, probably for plunder.

The telegraph line which has been laid between Thull and Kurram has been almost unmolested, and hostility seems almost confined to the Mangal tribe and some fanatics of Khost.

(FROM OUR SPECIAL CORRESPONDENTS.)

SIR RICHARD TEMPLE ON THE FRONTIER.

JACOBABAD, JAN. 12, NOON.

H. E. Sir Richard Temple arrives here to-day. He leaves with his Military Secretary for Dadur to-morrow, posting through in two days, horses being furnished by the Sind Horse.

MOVEMENTS OF SIR RICHARD TEMPLE.

JACOBABAD, JAN. 12, 7 P.M.

H. E. the Governor goes to Dadur under instructions from the Viceroy. After completing his tour of inspection he goes to Calcutta, which place he reaches not later than the 1st February.

THE KANDAHAR COLUMN.

CAMP, THRO' GULISTAN KAREZ, JAN. 11.

General Palliser's troops are now close to Kandahar, General Stewart's being only a short distance behind. I accompanied the former force, and from where I now write the city is plainly visible. It presents the appearance of a large square enclosure, the walls of which are studded with small bastions. There are no signs of the enemy, who is supposed to have retreated to the other side of the city. The leader of the enemy's Cavalry in the skirmish the other day was a brother of the Amir. Kandahar is supposed to be utterly abandoned by the Amir's troops.

COMMUNICATION WITH YAKUB KHAN.

JALLALABAD, DEC. 9.

There is no truth in the rumour of an advance or the despatch of a Mission to Kabul. Major Cavaguari lately despatched a letter to Yakub Khan, but no answer has arrived.

The 11th Bengal Lancers have arrived from the Khyber. The Guides Cavalry return to Daka to take a turn at convoy duty. The health of the camp is moderately good. Bridges over the Kabul River are being constructed. The 10th Hussars have reconnoitred as far as Dowlazai, 12 miles to the south. The inhabitants are friendly, but hesitate in consequence of doubt as to the intention of the Government. To-day a party of Guides Cavalry reconnoitred to Mahomed Azim's fort, fifteen miles to the south. To-morrow the first Infantry Brigade goes south six miles to Hadah. Postal arrangements are improved. When the new road by the Kabul River is ready, letters from Jalallabad will reach Peshawar in twenty hours.

MOVEMENT OF TROOPS.

PESHAWAR, DEC. 11.

The Bhopal Battalion has been ordered to Jamrud from Nowshera, and the 5th Fusiliers to Ali Musjid from Jamrud.

Heliographic through communication has been established with Jallalabad. The signal party at Sharkai ridge has been removed.

DEFEAT OF THE ENEMY'S OUTPOSTS.

ALLAHABAD, DEC. 11.

THE *Pioneer* publishes the following telegram:—

CAMP, THROUGH QUETTA, JAN. 10.

On the 4th January a force under Colonel Kennedy, consisting of the 2nd Punjab Cavalry, a Squadron of the 15th Hussars, two guns of A battery Royal Horse Artillery, detachments of 3rd Sind Horse and 60th Rifles, and the 26th Punjab Infantry, moved from Futtehulla Kilat to Mel Valley, from intelligence that was received that the enemy was holding the Galat Pass between Mel and the Takht-i-Pul Valley. The Cavalry and guns pushed rapidly forward, and seeing about 200 Cavalry our guns opened fire with effect. The enemy retired followed through the Pass by Colonel Kennedy's Cavalry. During this time General Palliser had moved forward a reconnoitring party from Hauz consisting of a Squadron of the 15th Hussars and a detachment of the 1st Punjab Cavalry; this force moving round by the Pass some miles further west, caught the enemy retiring before Colonel Kennedy, and promptly charged, killing and wounding about 30, and taking 7 prisoners. Only three or four of our men were wounded.

General Palliser is to-night in camp at Saifoodin in the Takht-i-Pul Valley, Colonel Kennedy at Mel, General Stewart at Hauz, and General Biddulph at Futtehullah Kilat. General Biddulph will be here to-morrow with Artillery, Engineers, field park, and half a battalion of the 70th Foot. The 22nd Baluchis and the 26th Punjab Infantry are also expected. The whole force will concentrate at Takht-i-Pul.

THE AMIR'S ENTRY INTO RUSSIAN TERRITORY.

ST. PETERSBURG, JAN. 10.

The *Journal de St. Petersburg* of to-day announces that the entry of the Amir into Russian territory is not in consequence of the victory gained by the British troops, but is a step undertaken simply with the view to invoke the mediation of Russia. The article which states this goes on to say, that the Amir will receive sympathetic hospitality, but that the idea of Russia undertaking to mediate is an illusion. This explanation will probably have some influence on the continuation of his journey.

STEAMER REPORTS.

GALLE, JAN. 11, 12-25 P. M.

Mail Steamer Gwalior from Bombay arrived.

THE SUPREME LEGISLATIVE COUNCIL.

THE Supreme Legislative Council reassembles on the 15th instant. The Hon. Mr. Cockerell moves the passing of the Stamps Bill, and the Hon. Mr. Stokes introduces a Bill to amend the law relating to the maintenance of coast lights in the Eastern part of the Bay of Bengal. The Hon. Mr. Colvin introduces a Bill to amend the Oudh Land Revenue Act of 1876, and the Hon. Mr. Thornton moves for the introduction of a Bill to license and regulate carriages and carts plying for hire within the limits of Municipalities and Cantonments in British India.

A GUARD of honor, consisting of 100 rank and file of the 21st Bombay N. I., paraded at the Apollo Bunder on Saturday last on the occasion of the landing of H. E. Rear-Admiral John Corbett, C.B. A salute of 13 guns was fired on the occasion. The Admiral called on the Commander-in-Chief in the course of the afternoon.

H. M. S. EURYALUS, which arrived in harbour on Friday, is a new ship on the Indian station, and this is her first visit to Bombay. She relieved the old Undaunted, which previously carried Rear-Admiral Corbett's flag, and which was sent home from Aden in October last. The Undaunted had lain for seven or eight months at Aden before she was ordered home, so it is a considerable time since we had the flagship at Bombay. The Euryalus left England on the 28th August for Aden, where she took over Admiral Corbett and his staff from the Undaunted; the original order that the latter vessel should return to Bombay and that the exchange was to be effected here, having been cancelled by telegram. From Aden, the Euryalus went to Trincomalee, and she has since visited, in turn, Rangoon, Calcutta, and Colombo, before coming round to Bombay. She is likely to stay here for some time after her long cruise, and perhaps opportunity may be given to the public before she sails again to visit her. She is an iron wooden-cased corvette, carrying 16 heavy guns, and belongs to the new class of swift unarmoured cruisers, which have become a favourite type of men-of-war. She has on board officers and crew new, like herself, to the Indian station, H. E. the Rear-Admiral and his staff only having been transferred from the Undaunted, the officers and crew of which vessel went home in her.

THE Famine Commission left Calcutta on January 2nd and reached Coconada on the 5th. They expected to have been at Masulipatam on the 10th and Madras on the 12th, where they stay a few days before going south.

WE learn by telegraph from Calcutta that a statement was prominently published by the *Statesman* on Saturday that the Viceroy had received information that the Amir had committed suicide, which, we are informed officially, is absolutely without any foundation whatever.

WE (*Pioneer*) believe that H. E. the Viceroy will not return to Lahore until quite the end of February, unless something at present unforeseen should arise to call him there earlier.

MAJOR-GENERAL CROMMELIN left India by Thursday's steamer from Calcutta.

THE *Pioneer* says:—Mr. Auckland Colvin has accepted the post offered him by the Anglo-Egyptian Administration, and will probably leave Bombay to join it by the steamer of the 20th inst.

A NOTE from Kurum informs us (*Civil and Military Gazette*) that the 5th P. I., under Major Macqueen, left Thull on the 31st for Kohat escorting sick, wounded, and all the captured guns; the 5th remain at Kohat, the rest of the Force has been already told off. The Wuziris, or rather the inhabitants of the neighbouring valleys near Thull, have been making annoying night attacks on the camp. On the 28th December a naick of the 5th P. I. was shot dead as he was relieving sentries, and a day or two before three grass-cutters were cut to pieces, two other camp followers wounded, and 26 camels carried off. A party of 28th P. N. I. recovered all but six of the latter, which were hamstrung by the marauders. Captain Plowden, Deputy Commissioner, arrived at Thull on the 29th to investigate these outrages which, as usual, have no *political significance!* The account of the *Times of India* correspondent, quoted in our columns, referring to the conduct in action of 2nd December of certain Pathans in the 29th P. N. I. is not correct; the shots fired during the night did not alarm the enemy, who, as will be seen by General Roberts's despatch, were completely surprised; and the misconduct of the Pathans referred to was confined to twenty men only, and did not affect the main body whose dead were found far in advance of other regiments, a sufficiently grim reply to the strictures against the regiment generally.

THE *Pioneer*:—The Hon'ble C. A. Turner, one of the Judges of the Allahabad High Court, is to be appointed Chief Justice of the High Court at Madras, in succession to Sir Walter Morgan. The matter has but just been settled, we believe, and the information we receive from Calcutta to the effect that it has been settled may be the first positive news on the subject to reach even Allahabad itself. To say that Mr. Turner's high abilities entitle him to the distinction he has received, is to describe the situation inadequately, and his departure from Allahabad will, in more ways than one, leave a place vacant that can never be filled up again. But it would be premature to say much on that head. Sir Walter Morgan's ill health obliges him to retire, we believe, and the Government could hardly have made a wiser selection than in appointing Mr. Turner in his place.

THE *Pioneer*:—The Subordinate Judge of Farruckabad, Pundit Har Sahay, who assaulted Mr. Saunders, the Judge, has been dismissed the service by the Lieutenant-Governor, in accordance with the advice of the majority of the Judges of the High Court. The decision is severe, though most likely the same result would have been reached by a more circutous process if the Lieutenant-Governor had taken the advice tendered him by the minority of the High Court, and had caused the whole incident to be made the subject of a formal and open inquiry by a special commission.

A SUKKUR correspondent of the *Civil and Military Gazette* mentions that General Phayre commands from that place to Dadur, in a semi-independent kind of way. And that General Stewart's Infantry now constitutes two divisions, one under General Primrose and the other under General Biddulph.

HIS HIGHNESS SYAD TURKI, Sultan of Maskat, hearing that two natives of India were being held in slavery at Rostak in the interior of Oman, sent to the Arab chief, who rules in that part, and insisted that the slaves should be brought in and given up to the British Political Agent. Unfortunately one of the slaves, a woman, died on the way, having been ill for some time previous. The other, a boy about 13 years old, is being sent to Bombay. According to his own account, he would appear to be of Hindu parentage, and he states that he was sold in Hyderabad about two years ago to the Arab who carried him into Oman. The importation of Indian slaves into Southern Arabia has been carried on for many ages, and the traffic is believed to have ceased only with the suppression of piracy by the Indian Navy. In the 16th, 17th, and 18th centuries it is known from European writers that the Maskat Arabs systematically raided the western coasts of India and carried off large numbers of women and children into captivity and they were then, no doubt, only continuing a practice of great antiquity. There is still a distinct section (though a small one) of the population of Oman known as descendants of Kutchis who had been brought as slaves from that province. Such every is now only occasionally possible as great vigilance is employed to prevent it. H. H. Syad Turki has received from the Political Agent an expression of the satisfaction felt by Government at his prompt action in aid of British subjects.

A SIMLA correspondent writes to a contemporary that the question of having a Railway up to Simla from Umballa has been under serious discussion. Sir Andrew Clarke has given his decision that a line might be made from Umballa to Kalka at the foot of the hills, with some chance of eventually "paying," but an Alpine one over the hills up to Simla would have no chance whatever; the cost would be so great, while the traffic would not be sufficient to cover the outlay.

WE (*Civil and Military Gazette*) learn by telegram from Sialkot that the number of points made by Sergeant A. Salmond, of the 72nd Highlanders, in securing the bonnet of being the best shot in the British Army for 1877-78, was 200. This is a magnificent total, but still two points under that of Private Edward Roes, of the 1st Punjab Volunteers, in his course, as already noted by us.

THE *Pioneer* says:—The East India Railway Company are about to build a new set of offices in Cacutta, in the immediate neighbourhood of their present premises, at an estimated cost of three lakhs of rupees.

THE Maharaja of Jeypore is not yet satiated with the joys of matrimony. He is now at Jodhpore celebrating his union with one of the sisters of the Maharaja of Jodhpore. This (says the *Pioneer*) is the third wife the Jeypore Chief has taken from the house of Jodhpore, and the seventh time he has entered the lists of matrimony.

THE *Civil and Military Gazette*:—Colonel Medley, Consulting Engineer, Mr. Bocquet, Agent, Mr. Ross, Traffic Manager, Mr. C. Stone, Chief Engineer, and other officers of the S.P. and D. Railway, leave Lahore by special train this (Thursday) morning, for Kurrachee. We believe this is preparatory to the taking over of the Indus Valley State Railway by the Company.

THE *Pioneer*:—Mr. Whitley Stokes, differing, we believe, from Sir FitzJames Stephen, is of opinion that no Additional Member of Council can go home on leave without losing his seat, and, Mr. Stokes being the reigning prophet, his view of the law is likely to be acted upon for the present. This accounts for Mr. T. C. Hope, who has just returned from Europe, having just been gazetted to a re-appointment.

THE *Statesman*:—The long looked for Bengal Rent Bill is at last fairly launched, and we may say at once that we think Sir Ashley Eden is to be congratulated upon it, and upon the lucid and able exposition of the Bill with which Mr. Mackenzie introduced it to the Council. The first object of the Bill is to provide a summary procedure for the recovery of rents, similar to that by which process on dishonoured Bills of Exchange, is now guided. Whenever a landlord is able to give certain *prima facie* proof that the rent is really due, the Civil Court will compel its payment under this Bill, by summary process. We are obliged to say that we think this provision, or something equivalent to it, absolutely necessary for the protection of the landlord, in the existing circumstances of the provinces. We compel the landlord by very summary process to pay the revenue, and we are bound to provide some summary process in turn, to enable him to recover his rent from the ryot, who constantly refuses to pay it from mere contumacy.

THE *Pioneer* says:—Mr. Molesworth, Consulting Engineer to the Government of India, is about to leave for Assam, to consult with the Chief Commissioner, now in Calcutta, about provincial railways. Sir Steuart Bayley is said to favour the view that in all save the first outlay railways will cost the province less than roads—the latter being more expensive to maintain. Then, again, a railway tapping Bengal will throw into Assam a good deal of its surplus labour—the true solution of the one great obstacle to her abiding prosperity.

WE are sorry to hear that the Maharaja of Burdwan is indisposed at Kalna, where two medical gentlemen from Darjeeling have been sent for to see him, besides his regular medical attendant.

It would be needless, says the Paris correspondent of the *Times*, to mention so well-known a publication as *L'Art*; but its Christmas number, an early copy of which has reached me, is of exceptional interest to the English public. It contains an excellent etching of the Prince of Wales, for which the Prince gave a sitting to M. Waltner, and a good portrait of Sir Philip Owen, engraved by Smeeton and Tilly, accompanied by warm and discriminating tributes of gratitude for their great services to the Exhibition. It has also a notice of the English fine art section, which it describes as more stamped with nationality than any other foreign school of painting, and numerous drawings by two South Kensington students—Mr. Watkins, of Birmingham, and Mr. Wilson, of Sheffield, whose regular engagement on a French art periodical is highly flattering to English art training.

AT a general assembly of the Royal Academy of Arts held on Dec. 19, Mr. Henry Stacy Marks, painter, was elected an Academician.

THE directors of the St. Gothard Railway have informed the Federal Council that, in view of the recent reorganization of the enterprise, they deem a thorough change in the *personnel* of the management desirable. Meanwhile the works are being energetically prosecuted, and, despite the hardness of the rocks lately encountered, the tunnel is now pierced to a total length of 11,650 metres, leaving only 2,260 to complete it.

IT is announced that Mr. Gladstone has answered for the second (February) part of a new periodical, the *Biograph*, the following questions:—"1. By what mental changes or external causes did Mr. Gladstone consciously pass from the Conservative to the Liberal side? 2. To what statesmen has Mr. Gladstone been most indebted for his tuition in the principles or the administrative art in politics? 3. Was Mr. Gladstone really surprised at the fate of the Irish University Bill, or did he persist in dealing with the subject as a matter of duty, knowing that he risked almost all that followed? 4. In the event of carrying through his Irish University Bill, what other Irish scheme, if any, was in his mind? 5. Does Mr. Gladstone's 'moral antipathy'—if it be wholly moral, as many persons contend—to Lord Beaconsfield date from the attacks made on Sir Robert Peel, or is it of more recent origin? 6. For what precise reasons was the late Earl Russell excluded from the Liberal Cabinet in 1868."

ONE of the American grand nephews of Keats, grandchildren of George Keats, announces a new edition with new poems and letters, but it is most unlikely that anything of value in the collection at Louisville has remained unpublished.

LORD DUFFERIN'S praise of the governing capacity of Irishmen, and his regret at being only able to make out that the Marquis of Lorne was next door to an Irishman—being a Scottish Celt of the West Highlands—are fresh in the memories of the Canadians. A deputation from the St. Patrick's Literary Society, which waited upon the Marquis of Lorne at Ottawa the other day, was therefore somewhat surprised to receive a reply from the Governor-General showing that he is not content to be placed in the inferior position assigned to him by Lord Dufferin. "Personally, I need hardly tell you," said the Marquis, "that the welfare of Irishmen is desired by me; for I claim no inconsiderable share of Irish blood, and should not be here today had it not been that a lady of Roscommon visited London during the last century, and consented to be taken to Scotland." This allusion is to the wife of John, fifth Duke of Argyll. This lady, the widow of the Duke of Hamilton, was one of "the beautiful Miss Gunnings," daughters of Mr. James Gunning, of Castle Coote, Roscommon.

THE NEW TOWN COUNCIL.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—It is indeed a matter of great regret that not a single European member of the Corporation should have scored sufficient votes to secure a seat at the board of the new Town Council. At any rate the public, both European and native, would have been gratified at the return of so valuable a citizen as Dr. Blaney—one who has for years past been a most prominent man in all matters appertaining to the welfare of the city. His services have been recounted over and over again so many times by friends and foes alike that it would be simply superfluous in this place to make any further mention of them. It would be gilding refined gold. In a lesser degree the public would have been glad if Mr. Kirkham, shifting though he has been like a kaleidoscope, had been also returned. It is a fact, which cannot be gainsaid, that several native members of the Corporation voted for both these gentlemen. But it would seem that though out of the 24 European members of the Corporation 22 were present on the election day, *all* did not vote for them. Had that been the case the return of the two gentlemen would have been as sure as they were living. This little incident is deserving of notice. It is evident that some European members have, for reasons unknown, refrained from giving their votes to at least one every way well qualified candidate. It is a mystery, which the Europeans alone ought to solve. But in the interest of justice it must be stated here, that if Dr. Blaney and Mr. Kirkham have not been returned it is not owing to any cabal or intrigue whatever on the part of the native members of the Corporation, as your contemporary would seem to insinuate. There has been nothing of the kind; and it is indeed disingenuous of them to assign reasons or attribute motives which do not exist, more especially after there have been public contradictions regarding the alleged assertion, and notably the one made in your own columns some time ago by Mr. Nowrjee Furdoonjee, emphatically stating that the intelligent native community are heartily sorry that so deserving a citizen as Dr. Blaney should not have been returned. But it is earnestly to be hoped that the Government list will include his name. To have it omitted will be like leaving Hamlet out of the play. So far then as to matters personal.

Now as to the composition of the Council as far as it goes. On the whole it is indeed a fair representative body. All classes of natives are represented. Most of the members have already served in previous Councils with credit to themselves and the city. But one and all possess temporary tenure of office—an anomaly of the composition of the Council as it would be when *fully* formed. No doubt the native members will be as 2 to 1. But what of that? Is it not an admitted fact that in the now moribund Council both Natives and Europeans worked harmoniously on the whole and gave general satisfaction to the public? Is not Sir Jamsetjee, as the Senior of the Municipal coffers now and then growled or even barked, was he not instrumental in steering the Council clear of many rocks ahead? Did he not lend a part of his leisure to the intelligent solution of intricate Municipal questions requiring great patience and labour? And did not the other native members perform their own share of the good work of the city? And did they not in certain important matters follow with alacrity the opinion of their sober, staid, and experienced European colleagues? And what did that show? That there were in the Council natives of sufficiently enlarged and liberal views, devoid of sectional bias, who were willing, whenever occasion arose, to take counsel of and act with their colleagues who are acknowledged to be well qualified by their hereditary political instincts to conduct public proceedings. All these facts lead me to believe that, heavy as the odds are against the European members in the Council, it will be found that its business will be conducted in as smooth and harmonious a manner as before, without friction or sparring. I am sure the fears of the Oburch Street Cassandra will be found groundless.

I now discuss a matter which arises from the results of the recent election. It will be seen that the majority of the native members is the *selfsame* one as before. In fact six of them have contrived to occupy seats at the Council board from the day of its first establishment, some 7 or 8 years ago. These are so tenacious of their seats, that it is doubtful whether they would ever think of vacating them till the term of their natural lives has run. Leech-like they have stuck to their seats and leech-like they must be removed. A mild thrusting is necessary in their case. They will die hard, but it is better in the interest of the public that their official existence for a time at least should be snuffed out, if not kept in suspended animation. What I mean is, that inasmuch as there are many aspirants panting for this civic honour, it is natural that their aspiration, legitimate as it is, should be gratified. Why should not some other well-qualified candidates go into Council? The larger the number of citizens who take, from time to time in our civic proceedings the better for the community at large. It was thus the Areopagus at Athens justly became famous as a political body, and it is thus that all constitutional bodies in England and on the continent of America become qualified to be the governors of the country. Our Municipal Corporation and Town Council are in reality two schools where the educated natives of the city may obtain that primary culture which will enable them by and bye to become fit for more active and political work in a higher sphere. Future members of our local Legislative Councils might well be drawn from the city Council. I have been acknowledged by the public to have filled their seats in the Corporation and the Town Council with credit and success. Hence it is extremely advisable that opportunities should be afforded to all legitimate and well qualified aspirants to the Town Councillorship by making it compulsory by law that no Councillor who has served for, say, the most, or 4 years consecutively, shall not be eligible for re-election again till a period of at least 2 years more have intervened. Such a rule will be most wholesome. Room will naturally be made from time to time for young men, a spirit of juvenescence will be kept alive, and the Council escape the great danger of its ever-trend senile, which will be the case if the present system of election be persisted in. There may be exceptions taken, however, to such men as Dr. Blaney and Mr. Nowrjee Furdoonjee. But for the general interest of the public the rule should be adhered to. I must, however, guard myself in my assertion. Needy or hungry adventurers ought on no account to be allowed to have a footing in the Council. Canvassing of votes is necessary to ensure election, but I certainly object to the practice of going the round of voters and driving them most reluctantly into giving their votes when once a candidate has been polite ly refused. It is most derogatory for him to ply from door to eve in the hope of securing votes in so questionable a manner. Sometimes it has been a mystery to native members, and to the public in general, how some native candidates of no merit get *European* support when their own countrymen refuse to vote for them! and when better men are left out in the cold for want of such support. Again, it is a matt r of regret that deserving European gentlemen studiously hold themselves aloof from putting themselves forward for seats both in the Corporation and in the Council. You have boldly asserted this fact in your journal only very recently; and it is strange that your contemporary should yet fail to see the truth and assign cabals and intrigues drawn only from his own moral consciousness.

To conclude. With the sort of rule I have suggested above in force, I believe the anomaly now to be witnessed in the Council would cease to exist; well qualified men anxious to serve the city would more and more come to the front; the intelligent public would be more and more educated, and the city at large eventually become an immense gainer, not to say anything of the healthy public spirit and public opinion such a body of men would have brought into play.

SOCIETY FOR PREVENTION OF CRUELTY TO ANIMALS.—The following is a summary of cases prosecuted by this Society during the week ending 11th instant—horses, 1 lame; bullocks, 8 sore necks, and 8 lame; amount of fines, Rs 53.

THE VEHAR LAKE.—The height of water in the Vehar Lake for the week ending Saturday 4 h January, was 55 feet and 1 tenth. In the corresponding week last year it was 51 feet 8 tenths.

ON the 10th instant in lat. 18 deg 2 min. N., long. 72 deg 40 min. E., Messrs Byramjee Merwanjee and Co.'s dubash boat spoke the British barque Lincelles, from London bound to Kurrachee, all well.

THE OLD GOVERNMENT ICE HOUSE.—Mr. Tudor's Bombay agent, who lately purchased the old Government Ice House at an auction sale, is now turning it to account. A fresh cargo of ice is being stored in its vaults.

CATHEDRAL CHOIR SCHOOL.—This school re-opens today after the vacation for the Christmas holidays. We learn that this time last year there were 27 boys on the roll, which was increased to 59 by the end of the year, and which is expected to be still further increased at the re-opening to-day.

THEFTS IN THE HARBOUR.—Three tonywallahs were on Saturday last convicted by Mr. W. Webb of stealing three bags of rice valued at Rs. 28 from boats lying in the harbour, and were sentenced each to seven month's rigorous imprisonment. Two other tindals of boats in the harbour were also on the day convicted by Mr. W. Webb of having in their possession two bags of rice, valued at Rs. 16, reasonably suspected of having been stolen or fraudulently obtained, and failing to account satisfactorily how they came by the same. They were each sentenced to two months' rigorous imprisonment.

ASSAULT ON BOARD SHIP.—Gosta Raka, a fireman of the steamship Scindia, was on Saturday last convicted at the Fort Police Court by Mr. W. Webb of committing an assault on Mr. John Reid, the second engineer of that vessel, and was sentenced to one week's rigorous imprisonment.

THEFTS BY A GOANESE BEGGAR.—Santan Fernandez, a Goanese vagrant, was on Saturday last convicted by Mr. W. Webb on two separate charges, one of committing theft in a building of sundry articles consisting of wearing apparel, a silver ring, gold buttons, spectacles, &c., and each of the collective value of Rs. 43-11 belonging to Marian De Souza, and the other of having in his possession a portion of stores reasonably suspected of having been stolen or fraudulently obtained, and failing to account satisfactorily how he came by the same. He was sentenced to an accumulated term of fifteen months' rigorous imprisonment.

A PRAISEWORTHY EXAMPLE.—It seems that, while the four mill companies, to which Mr. Nursey Kessowjee is secretary, treasurer, and agent, are in an insolvent condition, the directors are, receiving fees for attendance at the board meetings. One of the newly-appointed directors of the Colaba Spinning and Weaving Company, Mr. Heerjeebhoy Hormusjee Shroff, has, however, declined to receive any fees for such attendance, on the ground that, looking to the state of the company's affairs, "it would be robbing the unfortunate shareholders" of their money. He therefore returned to Mr. Kessowjee Naik, chairman of the board of directors, the fee that was sent him for his attendance at a meeting held on Thursday last, remarking in his letter that, "until a satisfactory arrangement is made with the creditors," he declined to receive any fees. The creditors of the mills might be tempted to ask the other directors—especially the chairman—to go and do likewise.

WE hear that on Friday last week an accident happened which detained the mixed train for Secunderabad for some hours. It seems that some wagons slipped off the rails at Waddi, and it took some time to clear the line. The train did not reach Secunderabad until midnight. It was only two days previously that the G. I. P. Railway Company made over charge of the State Line to the Government. The Traffic Department is under Mr. Chamberlain, and the Locomotive Department under Mr. De Rozy. No change has taken place in the time of running the trains, although some changes are spoken of as likely to take place.—*Deccan Herald.*

GOVERNMENT NOMINATIONS TO THE TOWN COUNCIL.

HIS EXCELLENCY the GOVERNOR in Council has nominated the following gentlemen to be members of the Town Council—C. Douglas, Esq., T. Blaney, Esq., Sir Frank Souter, Kt., C.S. I.; T. B. Kirkham, Esq. The Government have also appointed Dr. Blaney to be Chairman of the Council.

MACLEAN'S GUIDE TO BOMBAY.

WE ought to have acknowledged earlier—as we do now with our best thanks—the receipt of a copy of *Maclean's Guide to Bombay*. The title of the handsome little volume does not, in our opinion, convey an adequate notion of its contents; for while professing to be a Guide to Bombay alone, it is replete with information, quite sufficient to guide the traveller to any town in any part of India he may be bound to.—*Bombay Catholic Examiner.*

THE BOMBAY VOLUNTEERS.

WE were glad to see a better attendance than has been witnessed for some weeks past at the Volunteer parade on Saturday; but the muster was not so good as it ought to have been, considering the special occasion on which the men were called out—movements by the Adjutant General of Musketry. There were upwards of 150 of all ranks on parade, including 3 Field Officers (Col. Sexton, Majors Bayley and Kemball) and six Captains, 28 off, 7 Lieutenants, 19 Sergeants, 15 Corporals, and 102 privates. The companies assembled at the Town Hall at 5 o'clock, and after they had been proved in the usual way by their own officers, Col. Gillespie inspected their arms and accoutrements, walking down the ranks and looking at every man's rifle, bayonet, &c., in turn. After the inspection the battalion was marched off to the Esplanade, headed by the band, and put through a number of movements, creditably performed, which the precision of the doubling in quarter column, which was rather loose. The marching past, both in column and quarter column was very good. After a good drill in marching and wheeling the men were put through the manual exercises by Major Kemball, and through the bayonet exercises by Major Bayley.

Before dismissing the parade the Colonel congratulated the regiment heartily on the opinion which Colonel Gillespie had expressed to him, that the arms and accoutrements were in excellent condition.

Members of the corps should make every effort to attend as many as possible of at least the Commanding Officer's parades, during the next few weeks, as the annual inspection will take place some time next month.

At the close of February, we believe it is contemplated to hold the first of what we hope will be a long series of annual rifle meetings in connection with the Corps. The prizes will be provided chiefly out of the funds of the Bombay Volunteer Rifle Association. Any patriotic citizens who have not yet subscribed, but who desire to encourage a good movement and would like to contribute, should forward their subscriptions at once to the Secretary of the Association and Adjutant of the corps, Lieut. Dunne. We are glad to hear that there is a proposal to get up some "Tradesmen's prizes," and one gentleman has already contributed a splendid pipe, worth upwards of Rs. 100. In Calcutta, the Tradesmen's Prizes are amongst the best the local Volunteers have to shoot for. We do not like to see Bombay behind Calcutta in anything.

ADVERTISING AT RAILWAY STATIONS.
THE Proprietor of the "Bombay Gazette" Press having leased (among other privileges) from the Great Indian Peninsula Railway Company, and the Bombay, Baroda and Central India Railway Company, the exclusive right of advertising at all the Railway Stations belonging to these two Companies, is prepared to contract with parties desirous of posting Notices or advertisements on the lines.
The announcements may be in English or in any of the Native Languages.
The advantages which Railway Stations present as a means of bringing intimations of all kinds before the public have been demonstrated in England by the extensive use which is made by Advertisers, of every station, great and small, along every line in the United Kingdom.
Insurance Companies, Shipping Companies, Hotel-keepers, Merchants, Traders, and others who wish to forcibly direct on the notice of the Public, all alike value the privilege of Railway Station Advertising.
There is no reason why the privilege should not be also specially valuable to Advertisers in India. Looking to the great and increasing number of Native Railway Passengers on the two trunk lines of Western India, native merchants, traders, &c., seeing that they have the privilege of advertising in their own language, would find the publication of their announcement at Railway Stations a decided means of extending their business.
And as nearly ALL TRAVELLERS A REVING IN INDIA NOW LAND AT BOMBAY, and proceed by the G. I. P. or B. B. and C. I. Railways to their destinations, placards exhibited at the different stations on those lines are every day becoming more and more valuable as means of bringing the Advertisers' business to the notice of the Public.
Advertisers can select the Stations, on either line, at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed in an extremely moderate scale to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the Public.
Placards, according to the taste of Advertisers, may be Printed at the "Bombay Gazette" Press.
